### **To My Patients Who Move Away**

If you are moving out of the Newburyport MA area, you should seek a **new Provider** for your mental health needs. You may find it helpful to work with your health insurance company to locate a new Provider.

Usually I can provide you with prescriptions to continue your medications for 3 to 6 months while you locate a new Provider. I cannot do this indefinitely, especially if your medications include controlled substances. In order to continue receiving prescriptions from me, it will be necessary for you to come into my office in Newburyport.
